SKYCAB COSTUME - CARDBOARD SKELETON STENCILS

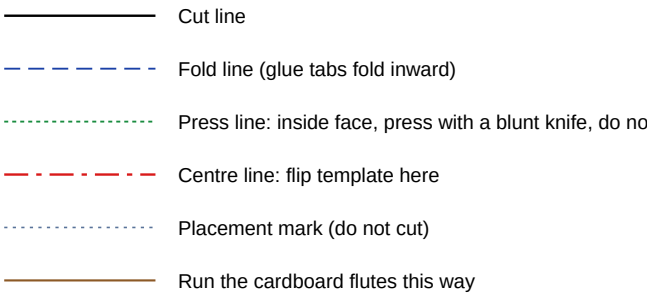

Made for: hips 8.0" wide x 5.0" deep, waist to mid-thigh 8.0", height 42.5". Body 60 x 44 cm, rotor span 74 cm, about 860 g.

1. PRINT AT 100% / "ACTUAL SIZE". Turn OFF "fit to page" and "shrink oversized pages".

2. Measure the 10 x 10 cm square below in BOTH directions. If it is off by more than 1 mm, fix the printer setting and reprint.
3. Parts bigger than a page are split into tiles (A1, B1, A2...). Trim the margin on the RIGHT and BOTTOM edges of a tile along its grey border, lay it over the next tile so the grey borders meet and the dotted 5 cm grid lines continue. Tape.
4. Cut the paper templates out, lay them on cardboard (match the FLUTES arrow to the cardboard ridges), trace, then cut.
5. HALF patterns (red dash-dot line): trace, flip the template over along the red line, trace the other half.
